

FY24

# ANNUAL REPORT

**candor**<sup>®</sup>  
health education

# ANNUAL HIGHLIGHTS

During the 2023-24 school year, Candor Health Education delivered 3,051 health education programs serving 660 schools across 11 Illinois counties in Indiana, New York, and Wisconsin. Our 18 professional health educators taught essential health topics to 81,856 students.

**81,856**  
students served

Candor works in elementary and middle schools across suburban Cook, DuPage, Will, Kane and Kendall counties. During FY24, **we partnered with 53 new schools** and **returned to 18 schools that stopped using Candor during COVID**.

**Last year 143 existing school partners added over 400 new programs.** The additional classes provided 13,000 students additional, valuable health information such as healthy relationship or how to avoid peer pressure to vape or drink alcohol.

# DEVELOPMENT

We hosted our annual golf outing in May of 2024. Participants played 18-holes, had a catered lunch, bid on auction items, and learned why our programs are so important.

We also received a 39% increase in grant funding from IDHS to include programs serving 4th & 5th graders.

## YOUR IMPACT

Individual donations and grants totaled

**\$457,247**

Helping us serve almost

**20,000 students**

# SPANISH TRANSLATION

More schools are requesting Spanish language programs and parent materials. In FY24 we translated Parent & student materials components of our two most popular programs (Puberty I and Human Reproduction & Embryology).

# 13,440

spanish speaking students received  
programs with spanish translation

# 12,000

students received free or discounted programs

***This accounts for 16% of the total students educated.*** Approximately half of all discounted programs were sex education programs that targeted lower resourced communities. In FY24, ***we raised enough funding to deliver 202 free or discounted sex education programs benefitting 6,616 young people at 48 priority schools.*** 80% of those students were low income and they were supported through our Health Education for All (HEFA) Fund which gives a sliding scale fee to schools serving at least 40% low-income students.

# TEACHER'S QUOTES

"I am so grateful Candor came and addressed these sometimes difficult subject areas with my students. THANK YOU."

"Thanks so much for doing this! I really appreciate the professional way Candor carried out this program. It was a great help to our 5th grade classroom."

"The presentation was so well done. I, along with my administrator, were very impressed with how the information was presented. We will definitely be using Candor Health for our presentations moving forward."

## Teacher Satisfaction

99%

of teachers agree that their educator was knowledgeable & professional

96%

95%

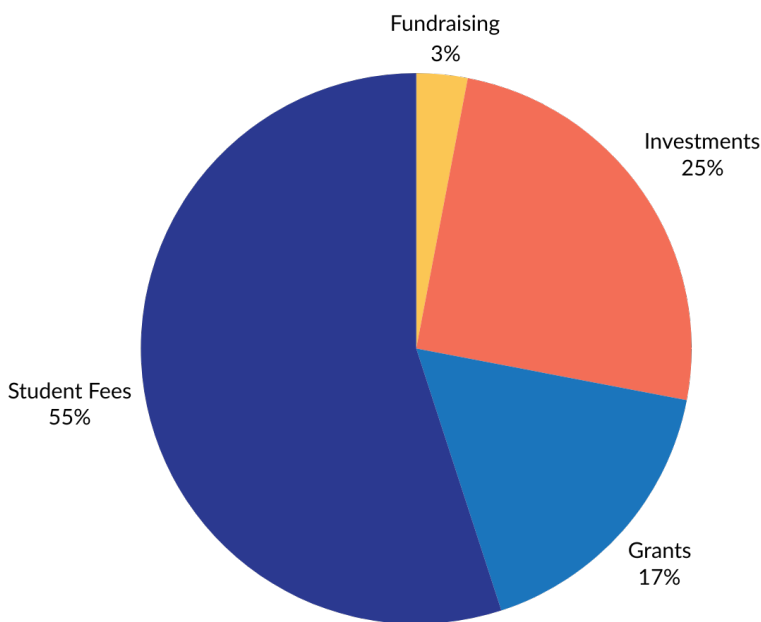

teachers were very satisfied or satisfied with our programs

schools will use the same programs next year if budget allows
