Ajay explains some of the goals that he has that may be impacted by sexting with his partner. List a goal that you have. How might it be impacted if you decided to send a sext to someone?

After thinking about his values and goals, Ajay said that he set some boundaries about what he does online. Can you think of a boundary that you have set about what you post or send online? Explain.

Personal boundaries are guidelines or limits that we set for ourselves within relationships, just like Ajay set a boundary for himself about sexting with his partner. A person with healthy boundaries is comfortable expressing what is and is not okay for them. Setting personal boundaries is an important part of developing healthy relationships and can also help you in reaching your goals. Try these strategies for setting personal boundaries.

- Trust and believe in yourself. You know yourself best. You know what you need, want, and what you value.
- Trust your gut feeling. If your feelings are telling you that something does not seem right or comfortable to you, trust that feeling and make the decision not to engage.
- Consider what is important to you. Will your choice negatively impact people that you care about? Could it impact what you enjoy doing? Is it in line with what you believe in and value?
- What communicating a boundary, be direct. Remember that being assertive does not mean that you are being unkind.
